Unseen Passage. (10 M.)

21. A/ Read the following text carefully then answer five of the questions that follow.

Social networking sites become more and more popular every day, and they are popular all around the world. Now, the top site all over the world is the Face book. In fact. Face book is one of the most popular social networking sites in the world. Why is the social networking spreading so quickly? One reason is that because people are sociable. We like to communicate with other people; we make friends with people in school, at work, and on line. Most people like to stay closely connected to their friends and family. We use call phones, email, messaging and websites to learn what our friends are doing. The internet is a good way to socialize and communicate, and social websites allow people to do this in many ways. Social networking is interactive and personal. People can share photographs of themselves and of others. They can tell people what they are doing at any moment and keep in touch. They can join groups with others who share their interests.
