Q.1 / A. Read this text carefully then answer (5) of the following questions that follow. (10 M.)

How does television affect our lives? It can be very helpful to people who carefully choose the shows that they watch. Television can make us know more about the outside world; there are good programmes that help us understand many subjects: Science, medicine, the arts, and so on. Moreover, television helps the old and the sick who can't leave the house or the hospital. It also gives learners of a foreign language lots of chances to practise the language and improve their vocabulary and listening. On the other hand, there are several serious disadvantages to television. Of course, it gives us a pleasant way to relax and spend our free time, but in some countries people watch television for over six hours a day. Many children watch TV for more hours each day than they do anything else, including studying and sleeping.
