السادس الاعدادي

Note: Answer all the questions.

Reading Comprehension: (20 Marks)

Q 1. A/ Read this text carefully then answer (5) of the questions that follow.

(10 M.)

Smoking causes lung cancer. Lung cancer is the number one cancer among men. Ninety percent of the people who get lung cancer die. Smokers have six times as much cancer of the mouth, tongue and throat as nonsmokers. Smoking gives people breathing problems. It harms the stomach. Smokers pollute the air. They breathe it out on their children and on their wives or husbands. Children whose parents smoke have more breathing and lung problems than other children. Smokers have the right to kill themselves by smoking if they want to. They don't have the right to kill their wives and children by smoking. Young people start smoking because everyone else is doing it. They feel grown up and independent. It helps them relax. Then it becomes a habit. It is very difficult to stop smoking, but the chance of getting lung cancer decreases only one year after one stops smoking. After ten years, the chance is almost the same as for nonsmokers.

1. Why do young people smoke?
2. How many people die when they get lung cancer?
3. What happens to children when their parents smoke?
4. What is the chance of getting lung cancer ten years after a person stops smoking?
5. What does smoking do to the body?
6. Give the passage a suitable title.
