## الأجوبة النموذجية

الدور التمهيدي

— 2024 م —

السادس الاعدادي

الرقم الامتحاني :

Note: Answer all the questions.

Reading Comprehension: ( 20 Marks )

Q1. A/ Read this text carefully then answer ( 5 ) of the questions that follow.

( 10 M.)

Paper is everywhere. We use paper for homework, money, books, letters, etc ... . Doctors put paper sheets on the examining table. Scientists use paper lab coats. Our knowledge is written on paper. This is changing now, with television, cassette tapes and computers to spread and keep information. Paper is made from trees, rice, wheat, cotton, corn and other plants. There are about 7000 kinds of paper. Today most paper is made from wood. It is made by machines. The word " Paper " comes from papyrus. The ancient Egyptians used papyrus, a plant that grew in the Nile River, to write on. The paper bag is an interesting invention. Before paper bags were invented, grocers had to wrap each item in paper and tie it. The customers had to wait. Then the grocers hired boys to make bags by hand, but this also took a long time. In 1884, a woman named Mattie Knight invented a machine that could make a paper bag with a square bottom. Paper is very common in our lives and we don't even think about it, but it is a wonderful invention.

1. What did the ancient Egyptians use to write on?
2. What did Mattie Knight invent?
3. Why did the grocers hire boys?
4. The word " Paper " comes from papyrus. ( True / False )
5. What is paper made from?
